## IMPORTANT SOURCES OF INFORMATION:

**BE SURE TO READ THROUGH THE POWDERPIG BROCHURE** so you have accurate information about the whos, whys, whens and how tos of the 2009 season. If you are new to Powderpigs, this is especially important! The brochure is also your Powderpig Handbook and Survival Guide - in it you will find important policies that will impact you and your Powderpig as well as provide a good source of information on just about everything "Powderpig" and good pointers for when you are getting your child ready for their Powderpig adventure. The brochure can be found on our web site.

<[powderpigs.com](http://powderpigs.com)> is the central source of news, updates, reminders, announcements and information about daily operations (during the season). Check "Latest News" all year 'round for news of what's going on up on the mountain and with our Powderpigs, but especially each week before you head up for lessons for late breaking news on daily ops. Often we have posted really fun and interesting things for both you and your Powderpigs along with the nitty gritty of Powderpig life.

Email us at [thinksnow@powderpigs.com](mailto:thinksnow@powderpigs.com) - this is the very best way to reach us. Email gives us a whole lot more time in which to respond to your messages, so our Powderpig phone has become more of an announcement device - giving out information like reports from the mountain during ski season rather than a means of two way communications.
